Major Software Projects

Trust Engine — Agentic AI for Startup Reliability Evaluation

FastAPI · LangChain · Ollama (LLaMA3) · Python 3.13 · Pydantic v2 2025

- Built a multi-agent AI system (5 agents) that evaluates startups from a single URL and produces a complete Startup Health Card.
- Implemented OSINT-based data extraction from Google, Wikipedia, and MCA registry for Indian startup verification.
- Integrated GitHub-based innovation scoring and cybersecurity audit covering SSL, WHOIS, and exposed endpoints.
- Generated weighted trust scores with risk classification to assist investors and recruiters in data-driven decisions.

HackHub — Full-Stack Hackathon Management Platform

Vanilla JS · Vite · Supabase (PostgreSQL + Auth + Realtime) · Vercel 2025

- Shipped a complete platform — registration, team formation, project submission, live judging, and real-time leaderboard — in one weekend.
- Built role-based dashboards (participant / judge / admin) and team invitation system using Supabase Realtime.

Oceanix — Marine Pollution Reporting Platform

Web Development · Community Platform · Gamification Oct 2025

- Developed a low-bandwidth community web platform for reporting marine and coastal pollution from remote areas.
- Implemented a gamified eco-points reward system where active contributors earn redeemable benefits.

Smart Travel Tourism — AI-Powered Tourism Platform

AI · Django · VR Integration · Maps API Sep 2025

- Engineered an AI-powered web app personalising travel with hidden gems, dynamic crowd management, and multilingual support.
- Integrated real-time crowd density estimation via location APIs and VR components for immersive destination exploration.

Hackathons & Achievements

Smart India Hackathon 2025 (SIH 2025)

Problem Statement: Student Innovation in Travel and Tourism 2025

- Developed an AI-integrated travel web application with Django backend and frontend as part of a 6-member team.
- Progressed through Internal and External Review rounds; gained hands-on experience in app marketing and project management.

DEVSPARK'25 — 24-Hour National Hackathon

IEEE CS SYP · KPR Institute of Engineering and Technology, Coimbatore 2025

- Designed and built a verified professional services marketplace connecting clients with home and technical service providers in 24 hours.

Air India Radio — Guest Speaker

Topic: Watching Cinema in Theatres vs OTT Platforms 2025

- Invited as a representative of CIT College to speak on the evolution of movie-watching habits for the Sunday 5 PM show.
